<sup>a</sup> Utility system to be filled in by the Offeror. A Schedule B-1 must be completed for each utility system offered. Utility systems are shown in paragraph *Privatized*. Offerors shall provide a comprehensive description of proposed tariffs in their Price Proposals.

<sup>b</sup> CLIN 0002 is required only if the tariff provides for separate identification of initial system deficiency corrections and connection charges. If separate i provided, it will be assumed the tariff rate includes these costs.

[illegible]

B.1, *Systems to be*

identification is not

## B.2.2 Schedule B-2 Fixed Price Economic Price Adjustment<sup>a</sup>

Available to offerors proposing a Fixed Price Economic Price Adjustment (FPEPA)

Notes:

1. Regulated offerors shall fill in each contract item for Years 1-50.
2. The nominal dollar estimates are applicable to the specific years of the Contract and reflect the inflation rate assumption to be provided by the Government..
3. Column d: Enter the sum of the monthly amortized costs (i.e., principal and interest) of the Credit for Purchase Price associated with the applicable contract year detailed in the applicable contract year.
4. Column e: If Recoverable Portion of the Purchase Price is included in the Applicable Tariff less FIT, enter "Column b".
5. Column e: If Recoverable Portion of the Purchase Price is not included in the Applicable Tariff less FIT, enter the sum of the monthly amortized costs (i.e., the principal and interest) of the Credit for Purchase Price associated with the applicable contract year.

6. Column g: If the ISDC Project price is included in the Applicable Tariff less FIT, enter "Column b".
7. Column h: If the FIT for ISDC Project price is included in the FIT for Applicable Tariff, enter "Column c".
8. Column i: If the ISDC Project price and FIT for ISDC Project price are included in the Applicable Tariff and Applicable Tariff Less FIT, enter "Columns b & c".

| Totals                             | \$ -                              | \$ -        | \$ -                       | \$ -                            | \$ -                    | \$ -                  | \$ -                             | \$ -        | \$ -               | \$ - | \$ -                                                                   | \$ -                  | \$ -               | \$ -                                  | \$ -                       | \$ -               | \$ -                 |

Notes:

- Offerors shall fill in each contract item for Years 1-50.
- The real dollars estimates are applicable to the initial two years of the Contract and exclude the effects of inflation beyond the initial two-year pricing period.
- The nominal dollars are applicable to the actual contract year in which the credit / charges / amortization will be invoiced under the Contract.
- Column (b) should include all O&M and G&A related costs expenses including the O&M related profit (if any) and excluding the federal income tax (FIT) related to the O&M related profit (column (c)).
- Column (d) should include all other costs and credits on a net basis, including capital credits, etc.
- Column (e) should include all non-federal taxes, such as state income tax, property taxes, any local taxes, etc.
- Column (f) should equal the sum of the monthly amortized costs (i.e., the principal and interest) associated with the recoverable portion of the purchase price in the applicable contract year detailed in Schedule 4.
- Column (g) should equal the sum of the monthly amortized costs (i.e., the principal and interest) associated with the purchase price credit in the applicable contract year.
- The sum of columns (b) through and including column (g) should equal the total operation and maintenance (O&M) costs detailed in Schedule 1. The total O&M costs should include all costs including O&M related profit, income taxes, general and administrative (G&A), other costs and credits, non-federal income taxes, the purchase price recovery and purchase price credit, etc. necessary to provide the utility service.
- Column (h) plus column (i) should equal the total levelized R&R component costs detailed in Schedules 1 and 2.
- Column (j), Subtotal CLIN 0001, should equal the sum of columns (b) through column (i).
- Column (k) plus column (l) should equal the annual summation of the monthly amortized costs (i.e., the principal and interest) associated with the ISDC / connection charges in the applicable contract year detailed in Schedule 3. TH sum of which is totalled in Column (m), Subtotal CLIN 0002.
- Column (n) plus column (o) should equal the annual summation of the monthly amortized costs (i.e., the principal and interest) associated with the transition related expenses included in column (p), Subtotal CLIN 0003.
